

## Sample SETI Oral Tasks

### Task description

You will have to do three tasks after maximum five minutes of preparation time, but you may start earlier if you wish. During preparation, you may have a look at the pictures, read the statement and take notes.

During the interview, you may be asked questions by one of the examiners. Each part may last up to 5 minutes.

### Part 1

In this part of the interview you are expected to talk about yourself without too much help. Topics you could include or the examiners may ask you about are, for example:

Facts, personality, home and family, habits, hobbies, attitudes, skills and knowledge, experience, education, etc.

### Part 2

In this part of the interview you will receive two pictures. You are expected to compare and/or link the two pictures. For example:

You may add your thoughts, associations, opinion and experience freely. You may have to answer the examiner's questions.

### Part 3

In this part of the oral interview, you will receive a statement. You will need to give your opinion on the statement or related issues. For example:

Chemistry is a useless subject.

OR

There is too much emphasis put on beauty these days.

### Assessment

Your orals skills will be evaluated on the basis of the SETI Oral Interview Criteria by both examiners independently (see separate document). The maximum score is 50.
