Election takes place through the internal electronic system, whereby students with a voting right shall choose and mark the people they wish to elect on the closed candidate list by electronic means, according to the accompanying instructions. The election is valid if at least 20% of the students of the given grade and programme have attended and have given a valid vote. A vote is valid if the student entitled to vote has voted for at least one candidate.

The deadline for the election is up to 8 calendar days, starting from the start date.

If, within the given student cohort, more candidates have been nominated than the number of available mandates, then – upon reaching the 20% validity threshold – the candidate(s) with the most votes will become Representative(s). If, within the cohort, the number of candidates matches the number of available mandates, then the supporting votes of 50%+1 members of the cohort are required for each candidate to earn a mandate.

In case of invalid voting, the election must be repeated within two weeks from the first election. In this case the voting shall be valid regardless of the students' participation rate.
